

MICRO COMPUTER INSTITUTE

Digital Marketing

Foundation Study Pack - Volume 1

DIGITAL | Duration: 3 Months

Learn - Practise - Apply

A structured bilingual-support handbook for classroom, lab and online learners.

Student use: Read each module, complete the lab activity, save evidence in your portfolio, and discuss doubts with your instructor.

Hindi support (Roman): Har module ko padhen, practical lab activity poori karen, apna work save karen aur doubt teacher se poochhen.

Course Roadmap

This 3 Months programme is organised into 8 learning modules. The sequence may be adjusted by the instructor to match the batch calendar.

No.	Module	Learning focus
1	Marketing Foundations	Audience, goals, funnel, offer and customer journey.
2	Content Strategy	Content pillars, calendar, copywriting and creative briefs.
3	Social Media	Page setup, organic growth, community and analytics.
4	Search Marketing	SEO basics, keywords, on-page optimization and local search.
5	Paid Advertising	Campaign objectives, targeting, budget and measurement.
6	Email & Messaging	Lists, consent, campaigns and customer follow-up.
7	Analytics	UTM links, traffic, conversions, KPIs and reporting.
8	Campaign Project	Plan and present a measurable campaign for a local business.

Module 1: Marketing Foundations

Audience, goals, funnel, offer and customer journey.

Key ideas

- Explain the purpose and essential vocabulary of marketing foundations.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates marketing foundations. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 2: Content Strategy

Content pillars, calendar, copywriting and creative briefs.

Key ideas

- Explain the purpose and essential vocabulary of content strategy.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates content strategy. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 3: Social Media

Page setup, organic growth, community and analytics.

Key ideas

- Explain the purpose and essential vocabulary of social media.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates social media. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 4: Search Marketing

SEO basics, keywords, on-page optimization and local search.

Key ideas

- Explain the purpose and essential vocabulary of search marketing.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates search marketing. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

UTM links, traffic, conversions, KPIs and reporting.

Key ideas

- Explain the purpose and essential vocabulary of analytics.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates analytics. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 8: Campaign Project

Plan and present a measurable campaign for a local business.

Key ideas

- Explain the purpose and essential vocabulary of campaign project.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates campaign project. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Practical Workbook

Complete these tasks in order. The instructor may adapt names and sample data, but every learner should produce original work.

Practical 1. Create and save a correctly named practice file for Marketing Foundations. Include a short note describing what you learned.

Practical 2. Create and save a correctly named practice file for Content Strategy. Include a short note describing what you learned.

Practical 3. Create and save a correctly named practice file for Social Media. Include a short note describing what you learned.

Practical 4. Create and save a correctly named practice file for Search Marketing. Include a short note describing what you learned.

Practical 5. Create and save a correctly named practice file for Paid Advertising. Include a short note describing what you learned.

Practical 6. Create and save a correctly named practice file for Email & Messaging. Include a short note describing what you learned.

Portfolio checklist

- Use folder format: CourseCode / StudentName / Module / Activity.
- Keep editable source files plus exported PDF or screenshot.
- Do not copy another student work; mention sources used.
- Back up important work in two locations.

Assignments & Assessment

Assignment 1: Concept Check

Write 300-500 words explaining three important concepts from Marketing Foundations and Content Strategy. Add one real-life example.

Assignment 2: Practical Submission

Complete a combined task using Social Media and Search Marketing. Submit source file, output and a one-page process note.

Assignment 3: Problem Solving

Identify a realistic institute or small-business problem that can be improved using Digital Marketing. Propose steps, tools, risks and success measures.

Assignment 4: Final Project

Build a complete project using at least four course modules. Test it, prepare screenshots, and present the result in 5-7 minutes.

Criterion	Weight
Accuracy and completeness	30%
Practical application	30%
Presentation and file organisation	20%
Originality, explanation and safe practice	20%

Revision & Safe Learning Guide

- Review class notes within 24 hours and practise again without watching the demonstration.
- Use legal software and trusted downloads. Scan external drives and downloaded files.
- Never share passwords, OTPs, private documents or student data.
- Verify AI-generated or internet information before using it in assignments.
- Use clear filenames, version numbers and regular backups.
- Ask for help when an error could damage data, equipment or accounts.
