

MICRO COMPUTER INSTITUTE

Tally Prime with GST

Foundation Study Pack - Volume 1

TALLY | Duration: 3-6 Months

Learn - Practise - Apply

A structured bilingual-support handbook for classroom, lab and online learners.

Student use: Read each module, complete the lab activity, save evidence in your portfolio, and discuss doubts with your instructor.

Hindi support (Roman): Har module ko padhen, practical lab activity poori karen, apna work save karen aur doubt teacher se poochhen.

Course Roadmap

This 3-6 Months programme is organised into 8 learning modules. The sequence may be adjusted by the instructor to match the batch calendar.

No.	Module	Learning focus
1	Accounting Basics	Transactions, debit-credit rules, journals and financial statements.
2	Company Setup	Create company, financial year, security and configuration.
3	Ledgers & Groups	Chart of accounts and accurate ledger creation.
4	Vouchers	Contra, payment, receipt, journal, sales and purchase entries.
5	Inventory	Stock groups, items, units, godowns and order processing.
6	GST	Registration details, tax ledgers, invoices, returns and reconciliation.
7	Payroll & Banking	Employee setup, salary entries and bank reconciliation.
8	Reports & Backup	P&L;, balance sheet, outstanding reports, export and restore.

Module 1: Accounting Basics

Transactions, debit-credit rules, journals and financial statements.

Key ideas

- Explain the purpose and essential vocabulary of accounting basics.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates accounting basics. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 2: Company Setup

Create company, financial year, security and configuration.

Key ideas

- Explain the purpose and essential vocabulary of company setup.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates company setup. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 3: Ledgers & Groups

Chart of accounts and accurate ledger creation.

Key ideas

- Explain the purpose and essential vocabulary of ledgers & groups.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates ledgers & groups. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 4: Vouchers

Contra, payment, receipt, journal, sales and purchase entries.

Key ideas

- Explain the purpose and essential vocabulary of vouchers.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates vouchers. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 5: Inventory

Stock groups, items, units, godowns and order processing.

Key ideas

- Explain the purpose and essential vocabulary of inventory.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates inventory. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 6: GST

Registration details, tax ledgers, invoices, returns and reconciliation.

Key ideas

- Explain the purpose and essential vocabulary of gst.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates gst. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 7: Payroll & Banking

Employee setup, salary entries and bank reconciliation.

Key ideas

- Explain the purpose and essential vocabulary of payroll & banking.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates payroll & banking. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Module 8: Reports & Backup

P&L, balance sheet, outstanding reports, export and restore.

Key ideas

- Explain the purpose and essential vocabulary of reports & backup.
- Demonstrate the standard workflow accurately and safely.
- Choose suitable tools, settings and file formats for the task.
- Check the output, correct errors and save work with a meaningful name.

Lab activity

Create a small working example that demonstrates reports & backup. Save the source file and a PDF or screenshot as evidence.

Self-check: Can you repeat the task without step-by-step help and explain why each important step is used?

Practical Workbook

Complete these tasks in order. The instructor may adapt names and sample data, but every learner should produce original work.

Practical 1. Create and save a correctly named practice file for Accounting Basics. Include a short note describing what you learned.

Practical 2. Create and save a correctly named practice file for Company Setup. Include a short note describing what you learned.

Practical 3. Create and save a correctly named practice file for Ledgers & Groups. Include a short note describing what you learned.

Practical 4. Create and save a correctly named practice file for Vouchers. Include a short note describing what you learned.

Practical 5. Create and save a correctly named practice file for Inventory. Include a short note describing what you learned.

Practical 6. Create and save a correctly named practice file for GST. Include a short note describing what you learned.

Portfolio checklist

- Use folder format: CourseCode / StudentName / Module / Activity.
- Keep editable source files plus exported PDF or screenshot.
- Do not copy another student work; mention sources used.
- Back up important work in two locations.

Assignments & Assessment

Assignment 1: Concept Check

Write 300-500 words explaining three important concepts from Accounting Basics and Company Setup. Add one real-life example.

Assignment 2: Practical Submission

Complete a combined task using Ledgers & Groups and Vouchers. Submit source file, output and a one-page process note.

Assignment 3: Problem Solving

Identify a realistic institute or small-business problem that can be improved using Tally Prime with GST. Propose steps, tools, risks and success measures.

Assignment 4: Final Project

Build a complete project using at least four course modules. Test it, prepare screenshots, and present the result in 5-7 minutes.

Criterion	Weight
Accuracy and completeness	30%
Practical application	30%
Presentation and file organisation	20%
Originality, explanation and safe practice	20%

Revision & Safe Learning Guide

- Review class notes within 24 hours and practise again without watching the demonstration.
- Use legal software and trusted downloads. Scan external drives and downloaded files.
- Never share passwords, OTPs, private documents or student data.
- Verify AI-generated or internet information before using it in assignments.
- Use clear filenames, version numbers and regular backups.
- Ask for help when an error could damage data, equipment or accounts.

Quick viva questions

1. What is the purpose of Accounting Basics, and what common mistake should a beginner avoid?
2. What is the purpose of Company Setup, and what common mistake should a beginner avoid?
3. What is the purpose of Ledgers & Groups, and what common mistake should a beginner avoid?
4. What is the purpose of Vouchers, and what common mistake should a beginner avoid?
5. What is the purpose of Inventory, and what common mistake should a beginner avoid?
6. What is the purpose of GST, and what common mistake should a beginner avoid?
